MGZN.

FOR **PAMESA** COLLECTIONS

CERSAIE 2023

En esta edición de MGZN, Pamesa Cerámica presenta una amplia variedad de grupos de productos. Destacamos nuestra apuesta por las piedras, con diseños elegantes y acabados de calidad, como las series Pietra di Merano, P. di Rapolano, P. di Lavagna y P. di Jura. Los pulidos suaves y de fondos claros, los ónices y calacata continúan siendo productos estrella por su sofisticación, aquí destacan las series Pietra di Marmi, Acquilea y Gelsa. También hemos incorporado tecnología digital para mejorar nuestras piezas, creando relieves y texturas cautivantes. La granilla digital nos permite agregar intensidad y estructura, con superficies suaves o rugosas y efectos ANTIC, presente en las series Etna, Java y Magma. Los decorados cerámicos en tercer fuego ofrecen acabados excepcionales como los de las colecciones Romantika y Be inspired, mientras que nuestras placas exhiben modelos vanguardistas que destacan en su máximo esplendor, exhibiendo nuevos modelos como Lux Portoro, los siete colores de Eleganza, y los decorados Aroma y Armonía, . Nuestro compromiso es brindar una selección diversa y de calidad para satisfacer las necesidades y preferencias de nuestros clientes.

In this edition of MGZN, Pamesa Cerámica presents a wide variety of product groups. We highlight our commitment to stones, with elegant designs and quality finishes, such as the Pietra di Merano, P. di Rapolano, P. di Lavagna, and P. di Jura series. Smooth polished surfaces with light backgrounds, onyx, and Calacatta continue to be flagship products for their sophistication, with the Pietra di Marmi, Acquilea, and Gelsa series standing out. We have also incorporated digital technology to enhance our pieces, creating captivating reliefs and textures. Digital granulation allows us to add intensity and structure, with smooth or rough surfaces and ANTIC effects, present in the Etna, Java, and Magma series. Third-fire ceramic decorations offer exceptional finishes, as seen in the Romantika and Be inspired collections, while our tiles showcase avant-garde models that shine in their full splendor, featuring new designs like Lux Portoro, the seven colors of Eleganza, and the Aroma and Armonía decorations. Our commitment is to provide a diverse and high-quality selection to meet the needs and preferences of our customers.

Dans cette édition de MGZN, Pamesa Cerámica présente une large variété de groupes de produits. Nous mettons en avant notre engagement envers les pierres, avec des designs élégants et des finitions de qualité, tels que les séries Pietra di Merano, P. di Rapolano, P. di Lavagna et P. di Jura. Les surfaces polies douces avec des fonds clairs, les onyx et le Calacatta restent des produits phares grâce à leur sophistication, avec les séries Pietra di Marmi, Acquilea et Gelsa qui se démarquent ici. Nous avons également intégré la technologie numérique pour améliorer nos pièces, en créant des reliefs et des textures captivants. Le granulé numérique nous permet d'ajouter de l'intensité et de la structure, avec des surfaces lisses ou rugueuses et des effets ANTIC, présents dans les séries Etna, Java et Magma. Les décors céramiques en troisième cuisson offrent des finitions exceptionnelles, comme on peut le voir dans les collections Romantika et Be inspired, tandis que nos carreaux exposent des modèles avant-gardistes qui brillent dans leur plein éclat, avec de nouveaux designs tels que Lux Portoro, les sept couleurs d'Eleganza et les décors Aroma et Armonía. Notre engagement est de proposer une sélection diversifiée et de qualité pour répondre aux besoins et aux préférences de nos clients.

RECOMENDACIONES PARA LA LIMPIEZA DE DECORADOS Y PIEZAS ESPECIALES
Debido a las características de los metales utilizados en la confección de estos productos es suficiente utilizar una bayeta húmeda y jabón líquido neutro.
Si la pieza llevara protección no quitarla hasta que el producto este colocado y limpio.
No se atenderán reclamaciones una vez colocado el producto.

RECOMMENDATIONS FOR THE CLEANING OF DECORATIVE AND SPECIAL PIECES
Due to the characteristics of the metals used in the production of these pieces, only a damp cloth and neutral liquid soap are required to clean them.
Any protective material should be left on the piece until it is fitted and clean.
Complaints will not be considered once the product has been fitted.

RECOMMANDATIONS CONCERNANT LE NETTOYAGE DES DECORS ET PIECES SPECIALES
Dues aux caractéristiques des métaux utilisés lors de la confection de ses produits, il est suffisant d'utiliser une éponge humide et du savon neutre.
Dans le cas où la pièce porterait une protection, ne pas l'enlever jusqu'à ce que le produit soit posé et nettoyé.
Aucune réclamation ne sera acceptée une fois le produit Pamesa posé.
